BRIDGE REPAIRS ON NH ROUTE 16 IN GORHAM
SINGLE LANE TRAFFIC OVER PEABODY RIVER

The New Hampshire Department of Transportation announces work is scheduled to begin the week of April 7, 2003 in Gorham on bridge and deck repairs to the NH Route 16 bridge over Peabody River.

This repair project will require single lane traffic at the bridge for approximately three months until the work is completed. Warning signs, cones, concrete barriers and temporary traffic signals will be used to guide motorists through the work zone.

Those driving on NH Route 16 in Gorham should use caution when approaching the bridge repair work zone.
